HISTORIC ROAD TRIP!

The Snowy Range Scenic Byway, Highway 130, was built as a wagon road in the 1870s. Fifty years later the road was widened and graded using horse-drawn equipment. The road was finally paved in the 1930s and was designated as the nation's second Scenic Byway in 1988. Six years later, work on the road was finally completed and it became known as the "Great Skyroad". <https://visitlaramie.org/brochure-snowy-range-scenic-byway>
