

A wide-angle photograph of Crater Lake National Park. The deep blue water of Crater Lake fills the center, surrounded by steep, forested volcanic slopes under a clear sky. The text 'ROAD! ReDefined! TRIP' is overlaid in a stylized, white, hand-drawn font with radiating lines.

ROAD! ReDefined! TRIP

Crater Lake National Park

Discover the Volcanic Legacy Scenic Byway All-American Road

DAY ONE

Make your way toward Crater Lake National Park where you'll overnight at the Historic Crater Lake Lodge. Here you'll spend the night and begin your journey on the Volcanic Legacy Scenic Byway.

The Crater Lake Region is home, of course, to Crater Lake – a shimmering body of water that fills the caldera of Mount Mazama. The lake fills a gaping hole left by one of the earth's largest explosions 7,700 years ago. As the northern jewel of the Volcanic Legacy Scenic Byway, Crater Lake National Park stuns visitors with its beauty. The lake, which is the deepest in the United States, can be explored in many ways, including taking a guided Boat Tour to Wizard Island. Overnight again at Crater Lake Lodge.

DAY TWO

In the morning there will be plenty of opportunities to snap photos with the sapphire blue backdrop as you enjoy a guided Trolley Tour on Rim Drive. Just south of Crater Lake, you will learn about the Modoc Indians and their struggles with settlers at the Fort Klamath Museum.

As you catch glimpses of Mount McLoughlin and Mount Scott along the Byway – remember that you are entering into a land of powerful upheaval where natural beauty and adventure are plentiful. For the adventurous, just let go on the Crater Lake ZipLine, with nine zips, two sky bridges and two rappels. For something less extreme, take a kayak tour on Malone Springs near Rocky Point with Real Oregon Adventures (ROE). Overnight in Klamath Falls.

Mount McLoughlin

Crater Lake ZipLine

DAY THREE

You will head south to delve into the history of the Tule Lake Segregation Center where Japanese were forced to live during WWII. Then continue on to Lava Beds National

Monument for more history and exploration. Spend most of the day at Lava Beds NM where you can become an expert spelunker with over 700 caves to explore made from a series of volcanic eruptions over the last half-million years. Become immersed in both geological and historical turmoil connecting the history from Fort Klamath with the Modoc Indian War .

Continue your journey at the end of the day toward Mount Shasta and stop at the Living Memorial Sculpture Garden. Located at the base of Mount Shasta, the garden displays a collection of hauntingly beautiful metal sculptures dedicated to veterans of all wars. After stretching your legs, end your day in the at the Railroad Park Resort where you'll enjoy an overnight stay and dinner in a railroad car.

DAY FOUR

After breakfast, spend the morning exploring Mount Shasta Everitt Memorial Highway where you'll have breathtaking views of

Mount Shasta, the second highest peak in the Cascades giants at 14,179 feet. You can visit the highest point you can reach by car on Mount Shasta at 7,858 feet. Here you can simply enjoy the view or take a hike into the Mount Shasta Wilderness. Stop at Bistro 107 for a quick lunch in Mount Shasta City. Then make your way to McCloud River Falls Trailhead which offers a 12-mile trail meandering upstream alongside three scenic waterfalls, all volcanic in nature. You can choose to view one, or all three falls. Overnight in Burney.

DAY FIVE

In the morning, make your way to Burney Falls, an easily accessible 129-foot waterfall, which flows at 100 million gallons of water each day. Then head to Lassen Volcanic National

Park, home to smoking fumaroles, meadows freckled with wildflowers, clear mountain lakes, and numerous volcanoes. Jagged peaks tell the story of its eruptive past, while hot water continues to mold the land. Overnight in Chester.

DAY SIX

Head home with all your treasured memories and photographs.

Peaks to See Along the Way

- Mount Mazama-8,156 ft.
- Mount McLoughlin-9,496 ft.
- Medicine Lake-7,913 ft.
- Deer Mountain-7,006 ft.
- Whaleback Mountain-8,344 ft.
- Mount Shasta-14,179 ft.
- Black Butte-6,325 ft.
- Burney Mountain-7,858 ft.
- Lassen Peak-10,457 ft.
